

Registration & Fees

The 2nd HLCA Summer School will be held at Bielefeld University's Center for Interdisciplinary Research (ZiF), and addresses students from e.g. public health, health communication, education, sociology, psychology, etc., as well as PhD candidates working on health related research questions. Registrations will be accepted in the order of their arrival.

To register, please complete the registration form available at the HLCA Summer School website until **July 31, 2017**.

www.hlca-consortium.com/en/summer-school

Fulfilment of selection criteria is mandatory for successful registration.

The Summer School is free of charges. Participants only have to cover costs for accommodation.

3 **ECTS points** can be awarded upon successful participation

Summer School Venue

Bielefeld University was founded in 1969 with an explicit research assignment and a mission to provide high-quality research-oriented teaching. Today it encompasses 13 faculties covering a broad spectrum of disciplines in the humanities, natural sciences, social sciences, and technology. With about 24,000 students in 115 degree courses and about 2,750 staff members it is one of Germany's medium-sized universities.

The Center for Interdisciplinary Research (ZiF) is Bielefeld University's Institute for Advanced Study is an independent the- matically open research institution.

Address

Universität Bielefeld
Methoden 1
33615 Bielefeld, Germany

Organisation

The 2nd HLCA Summer School will be organised by the HLCA research consortium, which is funded by the Ministry of Education and Research (BMBF). For this event, Bielefeld University as coordinator of the HLCA Consortium will collaborate with the European Public Health Association's (EUPHA) Health Promotion Section.

2nd Health Literacy Summer School:

Research, Policy and Advocacy

September 18th-22th 2017
Bielefeld, Germany

**Center for Interdisciplinary Research (ZiF) at
Bielefeld University**

with
Kristine Sørensen, Diane Levin-Zamir, R.V. Rikard,
Luis Saboga-Nunes & Peter Goldblatt

Organised by the Research Consortium:
**Health Literacy in Childhood and Adolescence
(HLCA) - A Target for Health Promotion and
Primary Prevention**

Scope and Aim

The 2nd HLCA Summer School is organised under the framework of health literacy research, policy, and advocacy. It will provide both a general and a specific overview on theoretical and practical evidence regarding health literacy. Participants will be introduced into:

- conceptual and methodological considerations,
- the use of measurement methods and data analysis,
- barriers and benefits within population studies, including children, adolescents, and vulnerable groups,
- setting approaches, including organisations as well as clinical/medical and community settings,
- intervention studies,
- health literacy policy-making and social issues,
- advocacy for health literacy and health literacy champions, including skill development.

Summer School Teachers and Speakers

- **Kristine Sørensen**
Global Health Literacy Academy, The Netherlands
- **Luis Saboga-Nunes**
National School of Public Health,
Universidade NOVA de Lisboa, Portugal
- **Diane Levin-Zamir**
University of Haifa and Clalit Health Services, Israel
- **R.V. Rikard**
Michigan State University, USA
- **Peter Goldblatt**
University College London, Institute of Health Equity,
England, UK

Format

Lectures, Teachings and Presentations

Key experts from health promotion, health literacy, and health equity will teach and give keynote presentations on the newest developments in the field.

Working Groups

Besides teaching, participants will collaboratively work in different working groups addressing research development and designing own projects as well as health literacy action plans and policy proposals.

Market Place

Participants will introduce their findings and project ideas at the market place. This will allow for reflecting and critically discussing their approaches.

Health Literacy Summit

The Summer School will be complemented with a health literacy summit with the participation of international experts from various fields of science.
